

ARE YOU 60 YEARS OF  
AGE OR OLDER?

Help us find a way to  
prevent bloodstream  
infections.

The logo for the Embrace Study, featuring a stylized circular icon with a blue and orange swirl, followed by the text "E.mbrace" in a bold, sans-serif font and "STUDY" in a smaller, all-caps font below it.

People aged 60 years or older, with a history of urinary tract infection, are at an increased risk of developing a bloodstream infection caused by an *E. coli* bacteria. A clinical research study is now enrolling.

To learn more and see if you are eligible for this clinical research study, please contact us:
